## DEFINITIONS

**SECURE:** When a juvenile is physically detained or confined in a locked room, or in a cell whether or not the door is locked, or is handcuffed to a stationary object. The juvenile is not free to leave the building. RECORD THIS HOLDING ON THE JUVENILE HOLDING LOG.

**NON-SECURE:** The juvenile may be in custody but is "free" to leave the building. The juvenile may be handcuffed to him/herself but not to a stationary object, and may be placed in a room with no lock on the door. DO NOT RECORD THIS NON-SECURE HOLDING of the juvenile on the holding log.

**STATUS OFFENSE:** Runaway, underage drinking, possession of alcohol/tobacco, curfew violation, truancy or other offense which would not be actionable if committed by an adult. A juvenile picked up on a warrant where the original offense is a status offense remains a status offender.

**NON-OFFENDER:** A dependent/neglected juvenile or a juvenile in need of mental health services when there is no delinquent charge.

A youth charged as delinquent may be held up to 6 hours ONLY for processing purposes OR for 6 hours before court and 6 hours after court. Once the 6-hour clock starts, it cannot be turned off - even if the juvenile is removed for brief periods of time - until the juvenile is PERMANENTLY removed from the secured setting.

## FEDERAL RULES AND REGULATIONS

**SIGHT AND SOUND SEPARATION:** No physical or sustained sight and sound contact is allowed between juvenile offenders in a secure custody status and incarcerated adults, including inmate trustees. Sight and Sound Contact is any physical or sustained sight and sound contact between juvenile offenders in a secure custody status and incarcerated adults, including inmate trustees.

**SIGHT CONTACT:** Defined as clear visual contact between incarcerated adults and juveniles within close proximity to each other.

**SOUND CONTACT:** Direct oral communication between incarcerated adults and juvenile offenders.

Separation must be maintained in all secure areas, residential and non-residential, of adult jails and adult lockups. This may be accomplished architecturally or through time-phasing. If time-phasing is used, policies and procedures need to be in place to support this.

Record ONLY those juveniles held in a secure setting (\* See asterisked text above)
